

Sensitive Water Solutions Ltd.

www.sensitivewatersolutions.co.uk

Pool Covers

- Save money fast
- Prolong the life of your pool hall
- Environmentally conscious
- Reduce chemical usage

- Payback on installation often within one year.
- Reduce pool hall temperature and condensation overnight, prolonging the life of the structure.
- From Sports Council Energy Data Sheets it is a conservative estimate that up to a 30% saving of a whole building's energy expenditure can be made through the use of pool heat retention covers.
- Reduced evaporation reduces chemical demand overnight, an additional saving.

"Consultancy, training & support, putting you in control"
